Subject: Re: Radio announcement

Thanks Amanda. I will let others know you are available.

Radio announcements and all press will have to be coordinated through the various commands being set up.

Region 8 is forming an Area Command. Region 9 is part of that and is setting up a small command unit in the Region. Pete Guria is the Area Commander for both the Gold Mine incident and the Typhoon clean up in Saipan.

Hi all,

If you all are interested in working on radio announcements I can help with whatever office support you need on this. I helped with radio announcements when we were announcing our CIC position.
